HIMIKO Fertilizer can use for many type of **crops, vegetables, fruits**.

Type	N (%)	P ₂ O ₅ (%)	K ₂ O (%)	Availability Longevity
222-5	12	12	12	80 ~ 100 Days
222-10	12	12	12	100 ~ 120 Days
222-15	12	12	12	120 ~ 150Days
Long HIMIKO	16	12	12	150 ~ 180 Days

◇ Main Components

Slow release Nitrogen
Guanyl Urea (Gu)

Nitrification Inhibitor
Gicyandiamide (Dd)

Slow release Nitrogen
Guanidine (Gd)

Organic Fertilizer

- Slow release N is affected by varieties of slow release nitrogen.

◇ Application of HIMIKO for LEAK

- Crop : LEAK
- Season : Planting on May → Harvest on Dec.

	Control	HIMIKO
Fertilizer	Organic Fertilizer	HIMIKO 222-15
Usage	Basal Dressing + Top Dressing × 2	Basal Dressing + Top Dressing × 1
Yield (KG /10a)	3917	4763
Comparison	-	+21.3%

Control HIMIKO

Even reduced the top dressing, Yield was increase.
